Gent We enclosed by mail invoice of Pistols & Guns which went forward as directed yesterday. If not all right let us know — We have rec'd the Guns and notice in examining them that four or five of the 10 bore have marks round breech of barrels which we fear will interfere with their sale but instead of returning them will keep them & try to sell them. But want you to remember that if we find they will not sell you will exchange them for others by & by — We

also find one of same goes with
bolt hooks that holds forestock
to - will have this repaired
and charge to you Yours -
and oblige
Yours truly

NEW YORK, Feb. 7th, 1879.

DEAR SIRS:

We beg to inform you that our factory on Fifth Street, Long Island City, L. I., was destroyed by fire yesterday. Our warehouse situated on West Avenue and Third Street, Long Island City, and containing a *full and well seasoned* stock of Varnishes and Japans, from which we are able to fill all orders with dispatch, was not touched by the fire. We are about to take possession of another factory, and will again be in full running order in a few days.

Thanking you for past patronage, and soliciting a continuance of the same, we remain,

Very respectfully,

D. Rosenberg & Sons.

FEB 19 1879

West Salem Ill.
Feby 14th 1879

James Henry Esq
Near Nazareth Penn.

My dear Sir.

Your kind letter was duly rec'd. but I was ashamed to write without having sold the gun. After a great deal of trouble & waiting the breach loader was sold for $13.00 I could have sold it for 10 dol. any time & unless I could sell them at that price I don't think that I will try any more. We can see it in the papers every day of gun works advertising double barrel shot guns, French twist, at $14.00

The ammunition for a
double barrell is not so
expensive. One man told
me that he saw it in a
paper about the double
b. gun. The times are hard
& labor is cheap. Shouldn't
think that you can get
workmen to work for you
too at half wages of
war times.
I have not collected the
money yet — have a due
bill for it — so I
send you per Reg. Letter
Ten Dollars. The bal
must rem. unpaid till
I can collect it all.
My Father is in the enjoyment
of his usual good health &
has just rec'd two large pkg's
of "Ulpsom Salt." Continuation

of "Die Ojagen wort" so
that you may imagine
his employment during the
present inclement season.
Therm. below zero this morning

Remain Yours —
Very truly
Henry A. Pietz
Jun

P.S. When you receipt for
the arrival of this please
mention price of breach
l. rifle, other rifles & shot
guns. My friend Chas.
Mathes talks of getting
b.l. rifle.

NEW YORK
MAY 15
1230 PM
1924
TRANSIT

Newark, N. J. May 14 1879

Messrs. Bolton Gun Works

We have made many improvements in the SOLID CELLULOID EMERY WHEELS, and KNOW *we have the safest and strongest Emery Wheel in the world—one that will carry the best and squarest corner, and are making, and have in use, wheels from 1-32 and 1-16 by 14 inches, and 1-8 by 18 inches in Diameter; and have cut lengthwise into a file three inches in four minutes, with 1-16 by 10-inch wheel, running two thousand revolutions per minute.*

We have also a combination by which we can make the wheels hard or soft—the soft being free-cutting and not heating, and the hard being like iron, very durable and wearing a long time, but not so free cutting, and heating more. We can make a wheel to suit any kind of work. We do not claim that we can get the wheel right the first time in every case, different speeds making the wheels cut and wear different, Surface Grinding or Broad Wheels requiring a softer combination than a thin wheel or one for sprues. In all cases it is best to write what the wheels are to be used for and at what speed the arbor runs.

If the wheels you have had, or may have, are not satisfactory, by informing us where the trouble is we can rectify the difficulty in the next wheel.

We have the cheapest and best wheels—and a number of wheels, ordered at one time, command special discount or prices, for we can manufacture and forward a number of wheels at less expense, proportionately, than a single one. They are ready to use, saving expressage and freight, and improve with age.

If those using a large number of wheels in a year will inform us as to the amount, kind and size of wheel used, we will give special bottom cash prices or discount.

The prices of all sizes of wheels can be reduced and varied by using Iron Centres, the larger the centre the cheaper the wheel.

Hoping to hear from you soon, we remain,

Yours truly,

Celluloid Emery Wheel Co.,

No. 228 MARKET STREET, NEWARK, N. J.

Gentlemen

We take the privilidge of writing to you asking you what you think of the Celluloid Emery Wheels And if we can make and deliver to you in three months for prompt Cash 30 days from date of shipment of goods

(6) Six Emery wheels 3/4 x 12 in. @ 3.00 apiece

(2) Twelve " wheels 3/4 x 12 in @ 2.70 apiece
